WHAT TO EXPECT:

The First Few Days

4,000 Genes Begin to Reset

Within 24 hours the stem cell activation patch begins to reset 3,000-4,000 genes to a younger healthier state.

People using the stem cell patches will experience an immediate effect through elevation of antioxidants, a decrease in inflammation, an increase in energy and joy.

~ Melinda H. Connors, DD, November 2020

Within 1-3 Months

Physical Changes Occur

Activating your stem cells leads to an increase in collagen in the skin which decreases wrinkles and increases hair growth.

Even if you don't feel the effects, rest assured, the new stem cells may be regenerating an internal organ or tissue before repairing something you feel.

Within 3-6 Months

Active Stem Cell Repair The pluripotent stem cells turn into any cell your body needs for repair. Your stem cells are now actively creating deep healing in your body and repairing damage caused by the aging process.

Within 6-12 Months

Reverse Aging "In a recent study, 14 out of 15 people lowered their vascular age by an average of 8 years after just 6 months of using X39."

"IT'S NOT ANTI-AGING, IT'S AGE REVERSING." David Schmidt, CEO, Inventor of LifeWave
